Co-production & Industry Guide

selective funding

The Netherlands Film Fund supports minority co-productions for feature films, documentaries, (short) animation and interactive and immersive media productions. We focus on creative co-productions with a strong artistic and international appeal plus substantial creative Dutch input.

How much can be applied for?

- Up to 250,000 euro for a feature film or feature animation film.
- Up to 50,000 euro for a feature length documentary, short animation or interactive and immersive media production.

How to access?

- Applications must be submitted by a production company that has operated consistently in the area of production and release in the Netherlands, the EU, EEA or Switzerland, for at least 2 years.
- The applicant is legally represented by a producer who, as majority producer, was responsible for at least 1 film production (feature (animation) film or feature length documentary) which has been theatrically released in the Netherlands.

What are the primary conditions?

- The grant must be fully spent on Dutch services, cast and crew.
- The Dutch share totals at least 10% of the production costs, including a possible Dutch share from Eurimages.
- A theatrical release in the country of origin of the main producer is required.
- At least 50% of the financing from the country of origin of the main producer should be committed upon application.

The Netherlands Film Fund has co-production treaties with Canada, China, France, Germany, French Community of Belgium, South Africa and specific agreements with VAF, HBF, IBF and NFI. Within the selective funding scheme we also have distribution support for minority Dutch films.
